What's The Parish Council ever done for us?

Street lighting, bus shelters, grass cutting, grounds maintenance, litter bins, seats, sporting facilities.....

A Parish Council is the first level of local government. Members of a Parish Council are people who live or work in the parish and are elected for a 4 year term. They are the voice of the community and seek to enhance the quality of living locally.

The Parish Council raises an annual precept which helps to pay for any projects it undertakes in the parish.

This leaflet has been produced to help explain the differing roles and responsibilities of the various local authorities. Listed inside are the roles and the responsibilities that the Parish Council may undertake. Some of these are shared with the District and the County Council.

The District and County Authorities have some sole responsibilities - these are described inside. Although The Parish Council has no powers in these areas, it can make representations to the relevant local authorities about issues affecting the parish and can provide information regarding relevant contacts.

Also on the back page is a list of council contacts.

we have kept this fact sheet short and to the point. Please use it as a guide only - it is not a legal document
